PE100+ Association present at CH4 obiettivo 2000

Between June 20th and 21st, the PE100+ Association was present at CH4 obiettivo 2000 "dal monopolio al mercato" in Bologna.

With the Decreto legislativo n. 164/00 that follows the European directive for gas on the internal Italian market (98/30/CE) have been started changes in the gas and electrical energy distribution market.

Thanks to these changes Federgasacqua Association has organised the CH4 2000 Conference to debate together with the gas, energy and water operators, both municipalities and multi-utilities, regarding the new rules of the market.

At the Conference have taken part the President of the electrical energy and gas authority, the electrical and gas associations and the main public and private companies as AEM Milano, AGAC Reggio Emilia, AMGA Genova, SEABO Bologna, ASM Brescia, ITALGAS, SNAM, etc...

Speakers and representatives:

| | | |
|------------|------------|--|

| Alberto | Meomartini | Presidenete Italgas |
| Davide | Usberti | Presidenete Gas It |
| Andrea | Lolli | Presidente Federgasacqua |

Other important issues have been discussed as follows:

- the management of the last mile (gas and electrical energy)
- the Italian market from monopoly to multi-utilities
- the decreto Letta 142 that considers the market for gas and electrical energy in three different businesses:

Purchasing Distribution Sales activity

The PE100+ Association's small exhibition table was located in the main conference hall and the available literature, in particular the general Association's article in Italian language was very much appreciated.
