

PE100+ Association Newsletter, September 2007

2. Annual PE100+ Association Advisory Committee Meeting

Annual PE100+ Advisory Committee Meeting was held in Budapest in 29-30 June, 2007. Several quality and market issues of water and gas pipe fields were presented and discussed. Presentations were given e.g. on status of EAS program, development of quality marks in Eastern Europe, technical projects of PE100+ Association for butt-fusion technologies and global cost comparison of Polyethylene piping systems versus more traditional technologies. In addition to the Advisory Committee members and PE100+ Association Board, representatives of TEPPFA and a group of Hungarian guests were invited. The purpose of this was to initiate discussions with Hungarian gas industry on Quality & Value issues and to foster the growth of a local pipe producer association.
